HALF YEARLY REPORT DECEMBER 31, 2014

# Kohinoor Textile Mills Limited

A Kohinoor Maple Leaf Group Company

# A CLASSIC VISTA

Kohinoor Textile Mills Limited represents a revolutionary break with precedent ways of merging classic vista with the height of modern achievements.

For Centuries the role of humanistic skill of the traditional heritage has been regarded as central and irreplaceable; but our century has witnessed that the heritage that has come down to us from ancient high civilization still play its conventional role. Journeys from golden ages to the value of modern achievements have nevertheless alarmed the technical skills to gain the total control in capacity building. Human skills along with the advanced technology have relatively increased the error free and speedy performances hence gained the opportunity for unification and developed the business ethics.

# **Directors' Review**

The Directors present un-audited accounts of the Company for the half year ended December 31, 2014, in compliance with requirements of Section 245 of the Companies Ordinance, 1984.

#### **OPERATING AND FINANCIAL RESULTS**

The Company recorded after-tax profit of Rs. 477 million compared to profit after tax of Rs. 423 million during the corresponding period last year, an increase of 12.77%.

Sales turnover for the period amounted to Rs. 7,731 million against Rs. 7,467 million, showing increase of 3.54% over the same period last year. The Company earned gross profit of Rs. 1,249 million (16.15%) relative to gross profit of Rs. 1,138 million (15.24%) during the corresponding period last year. Operating profit for the period before adjustment for financial charges amounted to Rs. 883 million for the period, against Rs.753 million in the previous year.

The quarter under review was marked by a continued decrease in cotton prices, both domestically and internationally, resulting in increased profits of the Company's Spinning divisions compared to the previous quarter. This effect was bolstered by dramatic decreases in the price of oil in the second-half of the quarter, significantly reducing the Company's energy costs. The Company is continuing to explore the use of synthetics, as their prices have decreased in conjunction with oil prices. Despite a shift toward higher HFO usage in the Company's power mix, energy supplies continue to be an issue due to high-levels and frequency of load-shedding of electricity and natural gas. The import of heavily-subsidized Indian yarn continues to drive down local yarn prices, which may reduce profits going forward unless stronger actions including enhanced countervailing duties are imposed by the government of Pakistan. While we believe that cotton prices will cease to decline further, the Company continues to pursue a policy of extreme caution in raw material procurement.

The results of the Weaving division are similar to the previous quarter. The poor energy situation has been alleviated by decreased local yarn prices. The Company has brought online its new shed of 48 looms, which will provide greater revenues going forward as a result of increased capacity. The unavailability or inconsistency of electricity and natural gas continue to negatively impact the results of the Weaving divisions. The management has begun exploring alternative energy sources for the Raiwind facility.

The Company's Home Textiles division continues to perform well, increasing profits over the previous quarter, in large part due to the reduced prices of raw materials. Further, the impact of Pakistan's GSP+ status in helping increase business to Europe should not be understated. Any further depreciation of the Rupee against the US Dollar will have a positive impact on the bottom line. The biggest threat facing the Home Textiles division in the upcoming quarter is the depreciation of the Euro, which may make Pakistan less competitive in the European markets. To combat the effects of a depreciating Euro, the Company is increasing its focus on its less price-sensitive, more quality-oriented consumers in the Institutional business area and on higher-end retail markets. Further, the Company is exploring the manufacture of more specialized and unique products.

The results of the Power division are much the same as those of the previous quarter but these are expected to improve in the coming quarter due to the reduced price of HFO.

#### DIVIDEND

Keeping in view the profitability, the Board of Directors has announced first interim cash dividend at Re.1/- per share i.e. (10%) for the year ending 30 June 2015.

#### ACKNOWLEDGEMENTS

As always, the Company remains thankful to all its employees, partners and stakeholders for their efforts and continued support.

For and on behalf of the Board

Taufique Sayeed Saigol Chief Executive

# Auditors' Report to the Members on Review of Unconsolidated Condensed Interim Financial Information

#### Introduction

We have reviewed the accompanying unconsolidated condensed interim balance sheet of KOHINOOR TEXTILE MILLS LIMITED as at 31 December 2014 and the related unconsolidated condensed interim profit and loss account, unconsolidated condensed interim statement of comprehensive income, unconsolidated condensed interim cash flow statement, unconsolidated condensed interim statement of changes in equity and notes to the accounts for the half year then ended (herein after referred to as "unconsolidated condensed interim financial information"). Management is responsible for the preparation and presentation of this unconsolidated condensed interim financial information". Management is condensed interim the approved accounting standards as applicable in Pakistan for interim financial information based on our review. The figures of the unconsolidated condensed interim profit and loss account and unconsolidated condensed interim statement of comprehensive income for the quarters ended 31 December 2014 and 31 December 2013 have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the half year ended 31 December 2014.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of unconsolidated condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated condensed interim financial information as of and for the half year ended 31 December 2014 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.
