## Directors' Review

The Directors of your Company have pleasure to present financial statements for the nine months ended 31 March 2019, in compliance with requirements of Section 237 of the Companies Act, 2017.

### REVIEW OF OPERATIONS

The results of the Spinning division are slightly weaker than the previous quarter due mainly to high raw material prices resulting from devaluation of the Pakistani rupee. However, going forward we are hopeful that the 2019 crop will be better in terms of quality and quantity as growers have had a most profitable year which should result in a larger area being planted. The Company is well covered for the next few months and any delay in arrival of the new crop should not affect us. The Company continues to invest in new technology to further improve its quality and productivity, as well as, diversifying its product offerings.

The results of the Weaving division are consistent with those of the previous quarter, however, the Company's order books are full for several months due in large part to exchange rate movements and energy pricing corrections made by the government.

The Cut & Sew division performed in line with the previous quarter. However, the emphasis going forward is on making much higher value products to differentiate the Company from its competitors; in this regard, investment in plant and machinery continues to be made.

The second phase of the Company's solar power project should be completed shortly and should contribute to decreasing the Company's energy costs going forward.

### FINANCIAL REVIEW

During the period under review, Company's sales increased by 17.98% to Rupees 15,536 million (2018: Rupees 13,168 million), while cost of sales increased by 14.58% to Rupees 12,917 million (2018: Rupees 11,273 million). This resulted in gross profit of Rupees 2,619 million (2018: Rupees 1,894 million).

Operating profit for the period under review stood at Rupees 2,158 million (2018: Rupees 2,130 million). The Company recorded after tax profit of Rupees 1,421 million (2018: Rupees 1,348 million). Earnings per share for the nine months ended 31 March 2019 stood at Rupees 4.75 against Rupees 4.50 for the corresponding period last year.

### ACKNOWLEDGEMENT

The Directors are grateful to the Company's members, financial institutions and customers for their co-operation and support. They also appreciate hard work and dedication of all the employees working at the various divisions.

For and on behalf of the Board

**Syed Mohsin Raza Naqvi**  
Director

**Taufique Sayeed Saigol**  
Chief Executive

# Selected Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited)

## For the nine months ended 31 March 2019

### 1. THE COMPANY AND ITS OPERATIONS

Kohinoor Textile Mills Limited is a public limited company incorporated in Pakistan under the Companies Act, 1913 (now the Companies Act, 2017) and listed on Pakistan Stock Exchange Limited. The registered office of the Company is situated at 42 Lawrence Road, Lahore. The principal activity of the Company is manufacturing of yarn and cloth, processing and stitching the cloth and trade of textile products.

### 2. BASIS OF PREPARATION

2.1 These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standard as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These unconsolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended 30 June 2018. These unconsolidated condensed interim financial statements are un-audited, and are being submitted to the shareholders as required by the Listed Companies (Code of Corporate Governance) Regulations, 2017 and Section 237 of the Companies Act, 2017.

### 3. ACCOUNTING POLICIES

The accounting policies and methods of computation adopted for the preparation of these unconsolidated condensed interim financial statements are the same as applied in the preparation of the preceding audited annual published financial statements of the Company for the year ended 30 June 2018 except for the changes in accounting policies as stated in note 3.2 to these unconsolidated condensed interim financial statements.

### 3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these unconsolidated condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these unconsolidated condensed interim financial statements, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Company for the year ended 30 June 2018.

### 3.2 CHANGES IN ACCOUNTING POLICIES DUE TO APPLICABILITY OF CERTAIN INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

The following changes in accounting policies have taken place effective from 01 July 2018.

#### 3.2.1 IFRS 15 - Revenue from contracts with customers

The Company has adopted IFRS 15 from 01 July 2018. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an Company's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the Company's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period.

The Company has adopted IFRS 15 by applying the modified retrospective approach according to which the Company is not required to restate the prior year results.

#### Key changes in accounting policies resulting from application of IFRS 15

The Company recognises revenue as follows:

##### Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Company: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be

recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability.

#### a) Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery. Otherwise, control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;
- the Company's performance creates and enhances an asset that the customer controls as the Company performs; or
- the Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

#### b) Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered.

#### c) Interest

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

#### d) Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

#### Impact of adoption of IFRS 15 on these unconsolidated condensed interim financial statements:

The Company has applied IFRS 15 using the modified retrospective approach for transition. This approach requires entities to recognize the cumulative effect of initially applying IFRS 15 as an adjustment to the opening balance of unappropriated profit in the period of initial application. Comparative prior year periods would not be adjusted. The application of IFRS 15 does not have any significant impact on the revenue recognition of the Company and therefore, the cumulative effect of initially applying this standard as an adjustment to the opening balance of unappropriated profit in the period of initial application is nil.

### 3.2.2 Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables generally do not include amounts over due by 365 days.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

### 3.2.3 IFRS 9 “Financial Instruments”

The Company has adopted IFRS 9 “Financial Instruments” from 01 July 2018. The standard introduced new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest. A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the Company makes an irrevocable election on initial recognition to present gains and losses on equity instruments in other comprehensive income. Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the Company’s own credit risk to be presented in other comprehensive income (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the Company. New impairment requirements use an ‘expected credit loss’ (‘ECL’) model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available.

The Company has adopted IFRS 9 by generally without restating the prior year results.

#### Key changes in accounting policies resulting from application of IFRS 9

##### i) Classification and measurement of financial instruments

IFRS 9 largely retains the existing requirements in IAS 39 “Financial Instruments: Recognition and Measurement” for the classification and measurement of financial liabilities. However, it replaces the previous IAS 39 categories for financial assets i.e. loans and receivables, fair value through profit or loss (FVTPL), available for sale and held to maturity with the categories such as amortised cost, fair value through profit or loss (FVTPL) and fair value through other comprehensive income (FVTOCI).

## Investments and other financial assets

### a) Classification

From 01 July 2018, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

### b) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

## Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

### Amortised cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income / (other expenses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

### Fair value through other comprehensive income (FVTOCI)

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and

interest, are measured at FVTOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment losses (and reversal of impairment losses), interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and recognised in other income / (other expenses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income/ (other expenses) and impairment losses are presented as separate line item in the statement of profit or loss.

### Fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt instrument that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other income / (other expenses) in the period in which it arises.

### Equity instruments

The Company subsequently measures all equity investments at fair value for financial instruments quoted in an active market, the fair value corresponds to a market price (level 1). For financial instruments that are not quoted in an active market, the fair value is determined using valuation techniques including reference to recent arm's length market transactions or transactions involving financial instruments which are substantially the same (level 2), or discounted cash flow analysis including, to the greatest possible extent, assumptions consistent with observable market data (level 3).

### Fair value through other comprehensive income (FVTOCI)

Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

### Fair value through profit or loss

Changes in the fair value of equity investments at fair value through profit or loss are recognised in other income/ (other expenses) in the statement of profit or loss as applicable.

Dividends from such investments continue to be recognised in profit or loss as other income when the Company's right to receive payments is established.

## ii) Impairment

From 01 July 2018, the Company assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade debts and other receivables, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

### iii) Hedge accounting

IFRS 9 requires that hedge accounting relationships are aligned with its risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness.

There is no impact of the said change on these unconsolidated condensed interim financial statements as there is no hedge activity carried on by the Company during the period ended 31 March 2019.

### iv) Impacts of adoption of IFRS 9 on these unconsolidated condensed interim financial statements as on 01 July 2018

On 01 July 2018, the Company's management has assessed which business models apply to the financial assets held by the Company at the date of initial application of IFRS 9 (01 July 2018). The main effect resulting from this reclassification is as follows:

#### Reclassifications of financial instruments on adoption of IFRS 9

As on 01 July 2018, the classification of financial instruments of the Company were as follows:

|  | Measurement category  |                |
|--|-----------------------|----------------|
|  | Original (IAS 39)     | New (IFRS 9)   |
| <b>Non-current financial assets</b>      |                       |                |
| Long term deposits                       | Loans and receivables | Amortized Cost |
| <b>Current financial assets</b>          |                       |                |
| Trade debts                              | Loans and receivables | Amortized Cost |
| Advances                                 | Loans and receivables | Amortized Cost |
| Security deposits                        | Loans and receivables | Amortized Cost |
| Accrued interest                         | Loans and receivables | Amortized Cost |
| Other receivables                        | Loans and receivables | Amortized Cost |
| Cash and bank balances                   | Loans and receivables | Amortized Cost |
| <b>Non-current financial liabilities</b> |                       |                |
| Long term financing                      | Amortized Cost        | Amortized Cost |
| <b>Current financial liabilities</b>     |                       |                |
| Trade and other payables                 | Amortized Cost        | Amortized Cost |
| Accrued mark-up                          | Amortized Cost        | Amortized Cost |
| Short term borrowings                    | Amortized Cost        | Amortized Cost |
| Current portion of long term financing   | Amortized Cost        | Amortized Cost |
| Unclaimed dividend                       | Amortized Cost        | Amortized Cost |

However, due to adoption of IFRS 9 there is no change in the carrying values of the financial assets and liabilities.

## 5. CONTINGENCIES AND COMMITMENTS

### 5.1 Contingencies

There is no significant change in the status of contingencies, as disclosed in preceding audited annual published financial statements of the Company for the year ended 30 June 2018.

### 5.2 Commitments in respect of letters of credit

- a) Letters of credit for capital expenditure amounting to Rupees 98.653 million (30 June 2018: Rupees 111.231 million).
- b) Letters of credit other than for capital expenditure amounting to Rupees 745.601 million (30 June 2018: Rupees 156.753 million).
- c) Contracts for capital expenditure amounting to Rupees Nil (30 June 2018: Rupees 6.661 million).

## 10. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

### 10.1 Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these unconsolidated condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the following three levels. However, as at reporting date, the Company has no such type of financial instruments which are required to be grouped into these levels. These levels are explained as under:

#### Level 1:

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.”

#### Level 2:

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

#### Level 3:

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

## 11. RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS

### (i) Fair value hierarchy

The judgements and estimates made in determining the fair values of the non-financial assets that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its non-financial assets into the following three levels.

| As at 31 March 2019               | Level 1                            | Level 2          | Level 3  | Total            |
|-----------------------------------|------------------------------------|------------------|----------|------------------|
|                                   | (..... Rupees in thousand .....) ) |                  |          |                  |
| Investment properties             | -                                  | 1,792,755        | -        | 1,792,755        |
| Freehold land                     | -                                  | 2,739,557        | -        | 2,739,557        |
| <b>Total non-financial assets</b> | <b>-</b>                           | <b>4,532,312</b> | <b>-</b> | <b>4,532,312</b> |

| As at 30 June 2018                | Level 1                            | Level 2          | Level 3  | Total            |
|-----------------------------------|------------------------------------|------------------|----------|------------------|
|                                   | (..... Rupees in thousand .....) ) |                  |          |                  |
| Investment properties             | -                                  | 1,792,755        | -        | 1,792,755        |
| Freehold land                     | -                                  | 2,739,557        | -        | 2,739,557        |
| <b>Total non-financial assets</b> | <b>-</b>                           | <b>4,532,312</b> | <b>-</b> | <b>4,532,312</b> |

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the period. Further, there was no transfer in and out of level 3 measurements.

#### Valuation techniques used to determine level 2 fair values

The Company obtains independent valuations for its investment properties at least annually and for its freehold land (classified as property, plant and equipment) at least every three years. The management updates the assessment of the fair value of each property, taking into account the most recent independent valuations. The management determine a property's value within a range of reasonable fair value estimates. The best evidence of fair value of land is current prices in an active market for similar lands. The best evidence of fair value of buildings is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the new construction / replacement value of the same building.

#### Valuation processes

The Company engages external, independent and qualified valuers to determine the fair value of the Company's investment properties at the end of every financial year and for freehold land at least every three years. As at 30 December 2018, the fair values of the investment properties and freehold land have been determined by Anderson Consulting (Private) Limited.

Changes in fair values are analyzed at each reporting date during the annual valuation discussion between the Chief Financial Officer and the valuers. As part of this discussion the team presents a report that explains the reason for the fair value movements.

## 12. FINANCIAL RISK MANAGEMENT

The Company's financial risk management objectives and policies are consistent with those disclosed in the preceding audited annual published financial statement of the Company for the year ended 30 June 2018.

## 13. DATE OF AUTHORIZATION FOR ISSUE

These unconsolidated condensed interim financial statements were approved by the Board of Directors and authorized for issue on 25 April 2019.

#### 14. CORRESPONDING FIGURES

In order to comply with the requirements of International Accounting Standard (IAS) 34 “Interim Financial Reporting”, the unconsolidated condensed interim statement of financial position and unconsolidated condensed interim statement of changes in equity have been compared with the balances of annual audited financial statements of preceding financial year, whereas the unconsolidated condensed interim statement of profit or loss, unconsolidated condensed interim statement of comprehensive income and unconsolidated condensed interim statement of cash flows have been compared with the balances of comparable period of immediately preceding financial year.

No significant reclassification / rearrangement of corresponding figures has been made.

#### 15. GENERAL

Figures have been rounded off to the nearest thousand of Rupees unless other wise stated.

CHIEF EXECUTIVE OFFICER

DIRECTOR

CHIEF FINANCIAL OFFICER

**KOHINOOR TEXTILE MILLS LIMITED**

**CONSOLIDATED CONDENSED INTERIM  
FINANCIAL INFORMATION**

**FOR THE PERIOD ENDED  
31 MARCH 2019**

## Directors' Review on Consolidated Condensed Interim Financial Statements

In compliance with section 237 of the Companies Act, 2017, the Directors of your Company are pleased to present the unaudited consolidated condensed interim financial statements of Kohinoor Textile Mills Limited (the Holding Company) and its Subsidiary Companies for the nine months ended 31 March 2019.

The subsidiaries companies of Kohinoor Textile Mills Limited are:

|                                     |       |              |
|-------------------------------------|-------|--------------|
| - Maple Leaf Cement Factory Limited | MLCFL | (55.22%),    |
| - Maple Leaf Power Limited          | MLPL  | (55.22%),    |
| - Maple Leaf Capital Limited        | MLCL  | (82.92%) and |
| - Kohinoor Capital Limited          | KCL   | (82.92%).    |

### GROUP RESULTS

Consolidated financial highlights of the Group are as follows:

|  | Nine months ended              |                                |
|--|--------------------------------|--------------------------------|
|  | Un-audited<br>31 March<br>2019 | Un-audited<br>31 March<br>2018 |
|  | (Rupees in million)            |                                |
| Net sales revenue                      | 33,733                         | 32,437                         |
| Gross profit                           | 7,599                          | 8,924                          |
| Profit from operations                 | 5,772                          | 6,534                          |
| Financial charges                      | 1,336                          | 838                            |
| Net profit after taxation              | 3,375                          | 4,063                          |
|  | (Rupees)                       |                                |
| Earnings per share - Basic and diluted | 8.04                           | 8.18                           |

### SUBSIDIARY COMPANIES

#### Maple Leaf Cement Factory Limited (MLCFL)

Net sales revenue of MLCFL remained Rupees 18,276 million (31 March 2018: Rupees 19,239 million). It has earned after tax profit of Rupees 1,151 million (31 March 2018: Rupees 2,854 million).

#### Maple Leaf Power Limited (MLPL)

MLPL has earned after tax profit of Rupees 742 million (31 March 2018: Rupees 535 million).

### Maple Leaf Capital Limited (MLCL)

MLCL has earned after tax profit of Rupees 209 million (31 March 2018: Rupees 181 million).

### Kohinoor Capital Limited (KCL)

Kohinoor Capital Limited (KCL) was incorporated on 28 November 2018 and Subsidiary company (MLCL) holds 100% shares of KCL. KCL has earned after tax profit of Rupees 9 million for the period ended 31 March 2019.

### ACKNOWLEDGMENT

The Directors are grateful to the Group's members, financial institutions, customers and employees for their cooperation and support. They also appreciate the hard work and dedication of the employees working at various divisions.

# Selected Notes to the Consolidated Condensed Interim Financial Statements (Un-audited)

## For the nine months ended 31 March 2019

### 1. THE GROUP AND ITS OPERATIONS

#### 1.1 Holding Company

Kohinoor Textile Mills Limited (“the Holding Company”) is a public limited company incorporated in Pakistan under the Companies Act, 1913 (now Companies Act, 2017) and listed on Pakistan Stock Exchange (PSX). The registered office of the Company is situated at 42-Lawrence Road, Lahore. The principal activity of the Holding Company is manufacturing of yarn and cloth, processing and stitching the cloth and trade of textile products.

The Holding Company holds 55.22% (30 June 2018: 55.22%) shares of Maple Leaf Cement Factory Limited and 82.93% (30 June 2018: 82.93%) shares of Maple Leaf Capital Limited, 55.22% (30 June 2018: 55.22%) shares of Maple Leaf Power Limited and 82.93% (30 June 2018: Nil) shares of Kohinoor Capital Limited.

#### 1.2 Subsidiary Companies

##### 1.2.1 Maple Leaf Cement factory Limited (MLCFL)

Maple Leaf Cement Factory Limited (MLCFL) was incorporated in Pakistan on 13 April 1960 under the Companies Act, 1913 (now the Companies Act, 2017) as a public company limited by shares and was listed on stock exchange in Pakistan on 17 August 1994. The registered office of the Subsidiary is situated at 42-Lawrence Road, Lahore. The Subsidiary is engaged in production and sale of cement.

##### 1.2.2 Maple Leaf Capital Limited (MLCL)

Maple Leaf Capital Limited (MLCL) was incorporated in Pakistan on 25 April 2014 under the Companies Ordinance, 1984 (now Companies Act, 2017) as a public limited company. The registered office of the Subsidiary is situated at 42-Lawrence Road, Lahore. The principal objects of the Subsidiary are to buy, sell, hold, or otherwise acquire or invest the capital in any sort of financial instruments.

##### 1.2.3 Maple Leaf Power Limited (MLPL)

Maple Leaf Power Limited (“the Subsidiary”) was incorporated in Pakistan on 15 October 2015 as a public limited company under the Companies Ordinance, 1984 (now the Companies Act, 2017). The registered office of MLPL is located at 42-Lawrence Road, Lahore. The principal objective of MLPL is to develop, design, operate and maintain electric power generation plant and in connection therewith to engage in the business of generation, sale and supply of electricity to MLCFL.

##### 1.2.4 Kohinoor Capital Limited (KCL)

Kohinoor Capital Limited (“the Subsidiary”) was incorporated in Pakistan on 28 November 2018 as a public limited company under the Companies Act, 2017. The registered office of KCL is located at 42-Lawrence Road, Lahore. The principal objects of the Subsidiary are to buy, sell, hold, or otherwise acquire or invest the capital in any sort of financial instruments.

## 2. BASIS OF PREPARATION

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standard as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These consolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Group for the year ended 30 June 2018. These consolidated condensed interim financial statements are un-audited, and are being submitted to the shareholders as required by the Listed Companies (Code of Corporate Governance) Regulations, 2017 and Section 237 of the Companies Act, 2017.

## 3. ACCOUNTING POLICIES

The accounting policies and methods of computation adopted for the preparation of these consolidated condensed interim financial statements are the same as applied in the preparation of the preceding audited annual published financial statements of the Group for the year ended 30 June 2018 except for the changes in accounting policies as stated in note 3.2 to these consolidated condensed interim financial statements.

### 3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these consolidated condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these consolidated condensed interim financial statements, the significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Group for the year ended 30 June 2018.

## 3.2 CHANGES IN ACCOUNTING POLICIES DUE TO APPLICABILITY OF CERTAIN INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

The following changes in accounting policies have taken place effective from 01 July 2018.

### 3.2.1 IFRS 15 - Revenue from contracts with customers

The Group has adopted IFRS 15 from 01 July 2018. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an Group's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the Group's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period.

The Group has adopted IFRS 15 by applying the modified retrospective approach according to which the Group is not required to restate the prior year results.

#### Key changes in accounting policies resulting from application of IFRS 15

The Group recognises revenue as follows:

##### Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Group: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability.

#### a) Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery. Otherwise, control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

#### b) Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered.

#### c) Interest

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

#### d) Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

#### Impact of adoption of IFRS 15 on these consolidated condensed interim financial statements:

The Group has applied IFRS 15 using the modified retrospective approach for transition. This approach requires entities to recognize the cumulative effect of initially applying IFRS 15 as an adjustment to the opening balance of unappropriated profit in the period of initial application. Comparative prior year periods would not be adjusted. The application of IFRS 15 does not have any significant impact on the revenue recognition of the Group and therefore, the cumulative effect of initially applying this standard as an adjustment to the opening balance of unappropriated profit in the period of initial application is nil.

### 3.2.2 Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables generally do not include amounts over due by 365 days.

The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

### 3.2.3 IFRS 9 “Financial Instruments”

The Group has adopted IFRS 9 “Financial Instruments” from 01 July 2018. The standard introduced new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest. A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the Group makes an irrevocable election on initial recognition to present gains and losses on equity instruments in other comprehensive income. Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the Group’s own credit risk to be presented in other comprehensive income (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the Group. New impairment requirements use an ‘expected credit loss’ (‘ECL’) model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available.

The Group has adopted IFRS 9 by generally without restating the prior year results.

#### Key changes in accounting policies resulting from application of IFRS 9

##### i) Classification and measurement of financial instruments

IFRS 9 largely retains the existing requirements in IAS 39 “Financial Instruments: Recognition and Measurement” for the classification and measurement of financial liabilities. However, it replaces the previous IAS 39 categories for financial assets i.e. loans and receivables, fair value through profit or loss (FVTPL), available for sale and held to maturity with the categories such as amortised cost, fair value through profit or loss (FVTPL) and fair value through other comprehensive income (FVTOCI).

#### Investments and other financial assets

##### a) Classification

From 01 July 2018, the Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies debt investments when and only when its business model for managing those assets changes.

## b) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

### Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

#### Amortised cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income / (other expenses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

#### Fair value through other comprehensive income (FVTOCI)

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment losses (and reversal of impairment losses), interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain

or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and recognised in other income / (other expenses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income/ (other expenses) and impairment losses are presented as separate line item in the statement of profit or loss.

#### Fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt instrument that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other income / (other expenses) in the period in which it arises.

#### Equity instruments

The Group subsequently measures all equity investments at fair value for financial instruments quoted in an active market, the fair value corresponds to a market price (level 1). For financial instruments that are not quoted in an active market, the fair value is determined using valuation techniques including reference to recent arm's length market transactions or transactions involving financial instruments which are substantially the same (level 2), or discounted cash flow analysis including, to the greatest possible extent, assumptions consistent with observable market data (level 3).

#### Fair value through other comprehensive income (FVTOCI)

Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

#### Fair value through profit or loss

Changes in the fair value of equity investments at fair value through profit or loss are recognised in other income/ (other expenses) in the statement of profit or loss as applicable.

Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

#### ii) Impairment

From 01 July 2018, the Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade debts and other receivables, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

### iii) Hedge accounting

IFRS 9 requires that hedge accounting relationships are aligned with its risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness.

There is no impact of the said change on these consolidated condensed interim financial statements as there is no hedge activity carried on by the Group during the period ended 31 March 2019.

### iv) Impacts of adoption of IFRS 9 on these consolidated condensed interim financial statements as on 01 July 2018

On 01 July 2018, the Group's management has assessed which business models apply to the financial assets held by the Group at the date of initial application of IFRS 9 (01 July 2018). The main effect resulting from this reclassification is as follows:

#### Reclassifications of financial instruments on adoption of IFRS 9

As on 01 July 2018, the financial instruments of the Group categorized under "loan and receivables" as per IAS 39 have been re-categorized under "amortized cost" as required by IFRS 9.

However, due to adoption of IFRS 9 there is no change in the carrying values of the financial assets and liabilities.

## 4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of this consolidated condensed interim financial information in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of this consolidated condensed interim financial information, the significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Group for the year ended 30 June 2018.

## 6. CONTINGENCIES AND COMMITMENTS

### 6.1 Contingencies

There is no significant change in the status of contingencies, as disclosed in preceding audited annual published financial statements of the Group for the year ended 30 June 2018.

### 6.2 Commitments in respect of letters of credit

- (i) Letter of credit for capital expenditure are Rupees 2,711.821 million (30 June 2018: Rupees 5,284.011 million).
- (ii) Letters of credit other than for capital expenditure amount to Rupees 1,591.753 million (30 June 2018: Rupees 1,549.443 million).
- (iii) Contracts for capital expenditure amounting to Rupees Nil (30 June 2018: Rupees 747.312 million).

All segment liabilities are allocated to reportable segments other than trade and other payables, corporate borrowings and current and deferred tax liabilities.

## 11. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

### 11.1 Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these consolidated condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the following three levels. However, as at reporting date, the Group has no such type of financial instruments which are required to be grouped into these levels. These levels are explained as under:

#### Level 1:

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.”

#### Level 2:

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

#### Level 3:

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.”

## 12. RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS

### (i) Fair value hierarchy

The judgements and estimates made in determining the fair values of the non-financial assets that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its non-financial assets into the following three levels.

| As at 31 March 2019               | Level 1                          | Level 2          | Level 3  | Total            |
|-----------------------------------|----------------------------------|------------------|----------|------------------|
|                                   | (..... Rupees in thousand .....) |                  |          |                  |
| Investment properties             | -                                | 1,792,755        | -        | 1,792,755        |
| Freehold land                     | -                                | 3,155,405        | -        | 3,155,405        |
| Investment in gold                | 525,720                          | -                | -        | 525,720          |
| <b>Total non-financial assets</b> | <b>525,720</b>                   | <b>4,948,160</b> | <b>-</b> | <b>5,473,880</b> |

| As at 30 June 2018                | Level 1                          | Level 2          | Level 3  | Total            |
|-----------------------------------|----------------------------------|------------------|----------|------------------|
|                                   | (..... Rupees in thousand .....) |                  |          |                  |
| Investment properties             | -                                | 1,792,755        | -        | 1,792,755        |
| Freehold land                     | -                                | 3,155,405        | -        | 3,155,405        |
| Investment in gold                | 400,294                          | -                | -        | 400,294          |
| <b>Total non-financial assets</b> | <b>400,294</b>                   | <b>4,948,160</b> | <b>-</b> | <b>5,348,454</b> |

The Group’s policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the period. Further, there was no transfer in and out of level 3 measurements.

### Valuation techniques used to determine level 2 fair values

The Group obtains independent valuations for its investment properties at least annually and for its freehold land (classified as property, plant and equipment) at least every three years. The management updates the assessment of the fair value of each property, taking into account the most recent independent valuations. The management determine a property's value within a range of reasonable fair value estimates. The best evidence of fair value of land is current prices in an active market for similar lands. The best evidence of fair value of buildings is to calculate fair depreciated market value by applying an appropriate annual rate of depreciation on the new construction / replacement value of the same building.

### Valuation processes

The Group engages external, independent and qualified valuers to determine the fair value of the Group's investment properties at the end of every financial year and for freehold land at least every three years.

Changes in fair values are analyzed at each reporting date during the annual valuation discussion between the Chief Financial Officer and the valuers. As part of this discussion the team presents a report that explains the reason for the fair value movements.

## 13. FINANCIAL RISK MANAGEMENT

The Group's financial risk management objectives and policies are consistent with those disclosed in the preceding audited annual published financial statement of the Group for the year ended 30 June 2018.

## 14. DATE OF AUTHORIZATION FOR ISSUE

These consolidated condensed interim financial statements were approved by the Board of Directors and authorized for issue on 25 April 2019.

## 15. CORRESPONDING FIGURES

In order to comply with the requirements of International Accounting Standard (IAS) 34 "Interim Financial Reporting", the consolidated condensed interim statement of financial position and consolidated condensed interim statement of changes in equity have been compared with the balances of annual audited financial statements of preceding financial year, whereas the consolidated condensed interim statement of profit or loss, consolidated condensed interim statement of comprehensive income and consolidated condensed interim statement of cash flows have been compared with the balances of comparable period of immediately preceding financial year.

No significant reclassification / rearrangement of corresponding figures has been made.

## 16. GENERAL

Figures have been rounded off to the nearest thousand of Rupees unless other wise stated.
